# KEYPAD FUNCTIONS
## GEM-P801

**KEY #**

**Status Light**          Must be on before system can be **armed**.

**On/Off**               **EASY ARM**

**Armed Light**          **Armed Light** will light when system is armed, and will flash when system is in alarm.

**Bypass Function**      If system is in trouble with one zone and you must leave, the **Bypass** function can be used.   Simply press Bypass Key and then corresponding zone number you want to bypass. The corresponding zone's number will flash slowly.   You may then arm system as usual.   When the system is disarmed, all bypassed zones will be reset.

**Auto Bypass**          When system is armed and **NO** Entry/Exit door is opened, interior protection will automatically be bypassed.

**Instant**              Press **Instant** to remove entry delay from the Entry/Exit door. The red Armed light will flash rapidly while in instant mode.

**AC Light**             This will be lit to indicate that AC Power is present.

**Function, 1**          **TEST BUTTON FOR SIREN**
                         Press the Function Key and then the 1 Key until siren is heard.

**Function, 5**          **CHIME FUNCTION**
                         Normally programmed on exit/entry zones.   When a particular door is opened, the keypad will chime - similar to doorbell. This function can be enabled or disabled simply by pressing Function Key and then Key   5.

**Function, 9P KEYPAD SOUND.**    Press the Function Key and then Key 9 to **TURN ON AND OFF ANY**

**9P & ρ**               **PANIC BUTTONS** - Audible or Silent
                         Press both Keys together and you will activate a panic alarm.

**7A & ρ**               **FIRE-** Press both Keys together to activate a fire alarm.

# OTHER FUNCTIONS:

**1,2,3,4**  **AMBUSH CODE**
Example:   If someone ambushes you with a gun or knife and
tells you to shut off the alarm, you simply press 1,2,3,4 and this will
activate a silent alarm.   The person will simply think you turned off the
alarm.

If light is **flashing**, this indicates **fire alarm**.
Sounder will pulse - to silence, enter access code followed by On/Off.
That will silence alarm but Fire LED on keypad will remain lit. To reset
fire zone press Reset.

If light is **steady**, this condition indicates a **System Trouble** is present.
Keypad sounder will beep. To silence, press Function then 9P.

**Alarm Memory**  If the Red Armed light is flashing rapidly, an alarm has occurred.
(Leave premises, call police.)   After returning, punch in access code
followed by the On/Off Key.   The LED by the zone that was violated
will be lit.   TO CLEAR press Reset Key .

**Zone Lights**  **Zone lights** (1 through 8) will light if zone is open and will flash if the
the zone has been violated.

**Reset**  Press **Reset** to reset Fire Zone, clear mis-entered codes, reset Alarm
Memory, etc.

**Emergency Keys**  Press simultaneously to signal an emergency condition:
(If enabled)  **7F & ***  **Fire Emergency**
**8A & ***  **EMS**
**9P & ***  **Police Emergency (Panic)**

**FOR SERVICE CALL:   576-9044**
