

## Options for Alarm Monitoring without Landline Phone service

### **GSM Cellular Communicator (cell backup panel)**

What you will need:

- Any Alarm Control Panel
- Cellular Wireless Coverage Availability

Advantages:

- Most reliable communication
- Remote Arm and Disarm
- Battery backed up by Alarm System
- Relatively maintenance free

Cost:

Standard Installation - \$175.00 plus tax

Total Monitoring Fee - \$24.95/month

### **IP Network Module**

What you will need:

- Latest NAPCO Control Panel Model
- High Speed Internet Service
- Accessible Router with known User and Password
- Recommend UPS Battery Backup

Advantages:

- Easy access from our office to communicate with our system
- Remote Arm and Disarm using Smart Phone or [myremotekeypad.com](http://myremotekeypad.com)
- Because of this we can remotely program or troubleshoot your system
- Optional remote customer access in near future

Disadvantages:

- Relies on AC Power to Cable/DSL Modem
- Relies on your ethernet/ISP Connection
- Could require maintenance if changes are made to your hardware

Cost:

- Standard Installation - \$175.00 plus tax
- Total Monitoring Fee - \$24.95/month
